## CERTIFICATE OF ENERGY ORIGIN

Through the use of photovoltaic panels on the roofs of our buildings, we reduce the carbon footprint of our operations. Most of the energy we need to run our business comes from these panels, and we meet the rest of our needs by purchasing entirely renewable energy, as confirmed by this certificate.

As a result, we can proudly say that **the electricity we use is 100% green energy!** This reduces our dependence on fossil fuels such as coal and gas, which directly translates into lower carbon emissions.
